3. Examples of Typical Services

25X1D

b. Office of Research and Reports (ORR)

Information relating to USSR weather reports and radio navigation stations.

c. Office of Scientific Intelligence (OSI)

Emergency frequencies used by the International Red Cross in Switzerland.

25X1D

d. Army Signal Corps Intelligence Agency (ASCIA)

A summary listing of all radio stations in Argentina.

A report on physical features of radio stations in the Republic of Ireland.

e. ODM Interdepartment Radio Advisory Committee (ODM/IRAC)

A tabulation covering a three year period showing a comparison by country of frequency notifications recorded in the ITU Radio Frequency Record (RFR) and those rejected by the ITU as being unsatisfactory. This information is for the use of IRAC Working Group #50 in its preparation of the U.S. position relative to the revision of the RFR, which will be on the agenda of the 1959 International Radio Conference.

f. American Committee for Liberation from Bolshevism (ACLB)

A reproduction of IBM cards containing monitoring information obtained over a two-month period, to determine the effectiveness of Soviet Bloc jamming operations against Radio Liberation broadcasts.

g. U.S. Information Agency (USIA)

Information on high frequency broadcast assignments to the USSR
